emergency and trauma care is written for Australian emergency care providers including paramedics, emergency nurses, pre-hospital care providers, nurse practitioners, general practice nurses, and allied health practitioners including occupational therapists and physiotherapists who are caring for trauma patients. This book follows the patient journey from pre-hospital to definitive care using a body systems approach. Each chapter provides comprehensive coverage of all aspects of adult and paediatric emergencies, implications for clinical practice, is supported by chapters of professional practice, clinical skills, research, evidence-based practice, and legal, ethical, and cultural issues. Clinical assessment, physiology, management, and rationale for intervention of common and not so common emergency presentations are provided with each chapter providing clear and relevant examples for both paramedics and nurses. Emergency and trauma care brings together a team of highly respected clinical practitioners and academics to deliver the most up-to-date text dealing with the practical procedures and evidence experienced by emergency and trauma care providers every day.

Chapter 2: Pre-hospital care overview in Australia and NZ  
Chapter 10: Scene assessment, management, and rescue  
Chapter 11: Pre-hospital clinical reasoning, triage, and communication
