The Four Fundamental Concepts of Psycho-Analysis

2018-05-08

the author's writings and especially the seminars for which he has become famous have provoked intense controversies in french analytic circles requiring as they do a radical reappraisal of the legacy bequeathed by freud this volume is based on a year's seminar which is of particular importance because he was addressing a larger less specialist audience than ever before amongst whom he could not assume familiarity with his work for his listeners then and for his readers now he wanted to introduce a certain coherence into the major concepts on which psycho analysis is based namely the unconscious repetition the transference and the drive in re defining these four concepts he explores the question that as he puts it moves from is psycho analysis a science to what is a science that includes psycho analysis

alcibiades attempted to seduce socrates he wanted to make him and in the most openly avowed way possible into someone instrumental and subordinate to what to the object of alcibiades's desire ágalma the good object i would go even further how can we analysts fail to recognize what is involved he says quite clearly socrates has the good object in his stomach here socrates is nothing but the envelope in which the object of desire is found it is in order to clearly emphasize that he is nothing but this envelope that alcibiades tries to show that socrates is desire's serf in his relations with alcibiades that socrates is enslaved to alcibiades by his desire although alcibiades was aware that socrates desired him he wanted to see socrates's desire manifest itself in a sign in order to know that the other the object ágalma was at his mercy now it is precisely because he failed in this undertaking that alcibiades disgraces himself and makes of his confession something that is so affectively laden the daemon of Αἰδώς aidós shame about which i spoke to you before in this context is what intervenes here this is what is violated here the most shocking secret is unveiled before everyone the ultimate mainspring of desire which in love relations must always be more or less dissimulated is revealed its aim is the fall of the other a into the other a jacques lacan

the unfulfilled and unsatisfied mother around whom the child ascends the upward slope of his narcissism is someone real she is right there and like all other unfulfilled creatures she is in search of what she can devour quaerens quem devoret what the child once found as a means of quashing the symbolic unfulfilment is what he may possibly find across from him again as a wide open maw to be devoured is a grave danger that our fantasies reveal to us we find it at the origin and we find it again at this turn in the path where it yields us the essential form in which phobia presents we find it again when we look at the fears of little hans with the support of what i have shown you today you will better see the relationships between phobia and perversion i shall go so far as to say that you will interpret the case better than did freud himself extract from chapter xi it's no accident that what has been perceived but dimly yet perceived nevertheless is that castration bears just as much relation to the mother as to the father we can see in the description of the primordial situation how maternal castration implies for the child the possibility of devoration and biting in relation to this anteriority of maternal castration paternal castration is a substitute extract from chapter xxi in the case of little hans the initial transformation which will prove decisive is the transformation of the biting into the unscrewing of the bathtub which is something utterly different in particular on the relationship between the protagonists voraciously to bite the mother as an act or an apprehension of her altogether natural signification indeed to dread in return the notorious biting that is incarnated by the horse is something quite different from unscrewing from ousting the mother and mobilising her in this business bringing her into the system as a whole for this first time as a mobile element and by like token an element that is equivalent to all the rest extract from chapter xxiii

the only thing of which one can be guilty is of having given ground relative to one's desire jacques lacan is psychoanalysis dead or are we to read frequent attacks on its theoretical mistakes and clinical frauds as a proof of its vitality slavoj zizek's passionate defence of lacan reasserts the ethical urgency of psychoanalysis traditionally psychoanalysis was expected to allow the patient to overcome the obstacles which prevented access to normal sexual enjoyment today however we are bombarded from all sides by different versions of the injunction enjoy lacan reminds us that psychoanalysis is the only discourse in which you are allowed not to enjoy since for lacan psychoanalysis itself is a procedure of reading each chapter uses a passage from lacan as a tool to interpret another text from philosophy art or popular ideology applying his ideas to hegel and hitchcock shakespeare and dostoevsky

this collection written by leading lacanian psychoanalytic theorists and practitioners is a unique exploration of the novel aspects of perversion from the perspective of cruelty a psychoanalytic study that has never been sufficiently undertaken in an english speaking world instead of reducing the notion of perversion to cultural representations a historical discourse or a clinical diagnosis the authors in this collection draw on freud kant hegel marquis de sade derrida deleuze and Žižek to untie the knot of psychic cruelty intrinsic to perversion and therefore de sexualize perverted acts they do so by theorizing perversion in psychoanalytic concepts of the oedipus complex the name of the father and jouissance and furthermore in the perspective of the clinics of neurosis and psychosis in dialogue with a clinical praxis philosophy and literature

slavoj zizek dubbed by the village voice the giant of ljubljana is back with a new edition of his seriously entertaining book on film psychoanalysis and life his inimitable blend of philosophical and social theory lacanian analysis and outrageous humor are made to show how hollywood movies can explain psychoanalysis and vice versa using films such as marnie and the man who knew too much

slavoj žižek a leading intellectual in the new social movements that are sweeping eastern europe provides a virtuoso reading of jacques lacan žižek inverts current pedagogical strategies to explain the difficult philosophical underpinnings of the french theoretician and practitioner who revolutionized our view of psychoanalysis he approaches lacan through the motifs and works of contemporary popular culture from hitchcock s vertigo to stephen king s pet sematary from mccullough s an indecent obsession to romero s return of the living dead a strategy of looking awry that recalls the exhilarating and vital experience of lacan žižek discovers fundamental lacanian categories the triad imaginary symbolic real the object small a the opposition of drive and desire the split subject at work in horror fiction in detective thrillers in romances in the mass media s perception of ecological crisis and above all in alfred hitchcock s films the playfulness of žižek s text however is entirely different from that associated with the deconstructive approach made famous by derrida by clarifying what lacan is saying as well as what he is not saying žižek is uniquely able to distinguish lacan from the poststructuralists who so often claim him

a chance meeting of a sewing machine and an umbrella the impossible face off between a whale and a polar bear one was devised by lautréamont the other punctuated by freud both are memorable why so they certainly tickle something in us lacan says what it is it s about man and woman there is neither accord nor harmony between man and woman there s no programme nothing has been predetermined every move is a shot in the dark which in modal logic is called contingency there s no way out of it why is it so inexorable that is so necessary it really has to be reckoned that this stems from an impossibility hence the theorem there is no sexual relation the formula has become famous in the place of what thereby punctures a hole in the real there is a plethora of luring and enchanting images and there are discourses that prescribe what this relation must be these discourses are mere semblance the artifice of which psychoanalysis has made apparent to all in the twenty first century this is beyond dispute who still believes that marriage has a natural foundation since it s a fact of culture one devotes oneself to inventing one cobbles together different constructions from whatever one can it may be better or worse there is oneness at the heart of the present seminar this aphorism which hitherto went unnoticed complements the there is no of sexual relation stating what there is it should be heard as one all alone alone in jouissance which is fundamentally auto erotic and alone in significance outside any semantics here begins lacan s late teaching everything he has already taught you is here and yet everything is new overhauled topsy turvy lacan had taught the primacy of the other in the order of truth and the order of desire here he teaches the primacy of the one in its real dimension he rejects the two of sexual relation and that of signifying articulation he rejects the big other the fulcrum of the dialectic of the subject disputing its existence which he consigns to fiction he depreciates desire and promotes jouissance he rejects being which is mere semblance henology the doctrine of the one here outclasses ontology the theory of being what about the symbolic order nothing more than the reiteration of the one in the real hence the abandoning of graphs and topological surfaces in favour of knots made of rings of string each of which is an unlinked one recall that seminar xviii sighed for a discourse that would not be semblance well with seminar xix we have an attempt at a discourse that would take its point of departure in the real the radical thought of modern uni dividualism jacques alain miller

during the third year of his famous seminar jacques lacan gives a concise definition of psychoanalysis psychoanalysis should be the science of language inhabited by the subject from the freudian point of view man is the subject captured and tortured by language since psychosis is a special but emblematic case of language entrapment lacan devotes much of this year to grappling with distinctions between the neuroses and the psychoses as he compared the two relationships symmetries and contrasts emerge that enable him to erect a structure for psychosis freud s famous case of daniel paul schreber is central to lacan s analysis in demonstrating the many ways that the psychotic is inhabited possessed by language lacan draws upon schreber s own account of his psychosis and upon freud s notes on this case of paranoia the analysis of language is both fascinating and enlightening

when i decided to explore the question of witz or wit with you this year i undertook a small enquiry it will come as no surprise at all that i began by questioning a poet this is a poet who introduces the dimension of an especially playful wit that runs through his work as much in his prose as in more poetic forms and which he brings into play even when he happens to be talking about mathematics for he is also a mathematician i am referring to raymond queneau while we were exchanging our first remarks on the matter he told me a joke it s a joke about exams about the university entrance exams if you like we have a candidate and we have an examiner tell me says the examiner about the battle of marengo the candidate pauses for a moment with a dreamy air the battle of marengo bodies everywhere it s terrible wounded everywhere it s horrible but says the examiner can t you tell me anything more precise about this battle the candidate thinks for a moment then replies a horse rears up on its hind legs and whinnies the examiner surprised seeks to test him a little further and says in that case can you tell me about the battle of fontenoy oh says the candidate a horse rears up on its hind legs and whinnies the examiner strategically asked the candidate to talk about the battle of trafalgar the candidate replies dead everywhere a blood bath wounded everywhere hundreds of them but my good man can t you tell me anything more precise about this battle a horse excuse me i would have you note that the battle of trafalgar is a naval battle whoah whoah says the candidate back up neddy the value of this joke is to my mind that it enables us to decompose i believe what is at stake in a witticism extract from chapter vi

Five Lessons on the Psychoanalytic Theory of Jacques Lacan

1998-07-10

in the three essays that make up this stimulating and often startling book jacques derrida argues against the notion that the basic ideas of psychoanalysis have been thoroughly worked through argued and assimilated the continuing interest in psychoanalysis is here examined in the various resistances to analysis conceived not only as a phenomenon theorized at the heart of psychoanalysis but as psychoanalysis s resistance to itself an insusceptibility to analysis that has to do with the structure of analysis itself derrida not only shows how the interest of psychoanalysis and psychoanalytic writing can be renewed today but these essays afford him the opportunity to revisit and reassess a subject he first confronted in an essay on freud in 1966 they also serve to clarify derrida s thinking about the subjects of the essays freud lacan and foucault a thinking that especially with regard to the last two has been greatly distorted and misunderstood the first essay on freud is a tour de force of close reading of freud s texts as philosophical reflection by means of the fine distinctions derrida makes in this analytical reading particularly of the interpretation of dreams he opens up the realm of analysis into new and unpredictable forms such as meeting with an interdiction when taking an analysis further is forbidden by a structural limit following the essay that might be dubbed derrida s return to freud the next is devoted to lacan the figure for whom that phrase was something of a slogan in this essay and the next on foucault derrida reencounters two thinkers to whom he had earlier devoted important essays which precipitated stormy discussions and numerous divisions within the intellectual milieus influenced by their writings in this essay which skillfully integrates the concept of resistance into larger questions derrida asks in effect what is the origin and nature of the text that constitutes lacanian psychoanalysis considering its existence as an archive as teachings as seminars transcripts quotations etc derrida s third essay may be called not simply a criticism but an appreciation of foucault s work an appreciation not only in the psychological and rhetorical sense but also in the sense that it elevates foucault s thought by giving back to it ranges and nuances lost through its reduction by his readers his own texts and its formulaic packaging

jacques lacan continues to be subject to the most extravagant interpretations angelic to some he is demonic to others to recall lacan s career now that the heroic age of psychoanalysis is over is to remember an intellectual and literary adventure that occupies a founding place in our modernity lacan went against the current of many of the hopes aroused by 1968 but embraced their paradoxes and his language games and wordplay resonate today as so many injunctions to replace rampant individualism with a heightened social consciousness widely recognized as the leading authority on lacan Élisabeth roudinesco revisits his life and work what it was and what it remains
