Lemon-Aid New and Used Cars and Trucks 1990–2016 2015-11-21 seminar paper from the year 2016 in the subject business economics business management corporate governance grade 1 2 university witten herdecke language english abstract in times of globalisation mergers and acquisitions m a are an important and common tool for companies in order to expand their operations as well as to face changing market conditions and increased competition over the past three decades m a have therefore become a truly global phenomenon while in 1985 there were only 2 675 m a transactions worth 347 billion usd there were more than 46 000 global transactions worth more than 4 5 trillion usd in 2015 in comparison to 2014 the number of deals increased marginally by 2 7 percent in 2015 while the value of the transactions grew by 16 percent nevertheless and despite the increasing popularity of m a transaction worldwide several studies yield that mergers actually have a high rate of failure depending on whose research results one relies on the failure of m a deals varies between 60 and 75 percent in this context it should however be distinguished between the failure of creating any business benefit especially shareholder value and the total failure of the merger and a segregation afterwards as e g daimler chrysler did which most likely will be a much lower percentage as one recent study found out culture has been identified to be the cause of 30 percent of failed integrations these cultural differences between the merging companies become even more important in cross border mergers where people from different cultural groups with different opinions attitudes and values interact with each other although it is known that culture plays a key role in the integration process and therefore also for the success of the whole merger it is often given relatively little attention to by the managers after building a theoretical background on m a and organizational culture the paper will focus on the role of culture in a merger it will be analysed which role the organizational culture plays in a merger why so many mergers fail due to cultural differences and how the factor culture can be successfully managed within a merger in the second part of the paper i will briefly present the merger of fiat and chrysler shedding light on their different cultures and the integration process in the end there will be a short summary

International Management in Practice 2015-08-25 for enthusiasts reading magazines such as motor trend road track and others david kimble is no stranger his brilliant cutaway artwork has been gracing the pages of those publications for years whether he illustrated engines transmissions full car chassis sports cars race cars or classics his cutaway artwork revealed in excruciating detail things that a camera lens could never capture in david kimble s cutaways the techniques and the stories behind the art kimble reveals the secrets techniques procedures and the dedication to craft that is required to produce these amazing illustrations he covers the step by step procedures while producing fresh artwork for this book featuring a

mclaren can am car as well as a vintage harley davidson although the procedures covered here are unique to kimble and pretty much a pipe dream to mere mortals this title provides an inside look into how he does it also included are the stories and tales of how it all started traveling the world to illustrate cars behind the scenes with manufacturers the corvette years as well as a gallery of many illustrations never before has david kimble provided a look into his cutaway skunkworks or shared the procedures for bringing these beautiful technical illustrations to life this book is a must have for any automotive or art fan
