Notes on Nursing 1860 the founder of the nursing profession discusses the image and the duties of the profession

Notes on Nursing 2015-05-18 notes on nursing is a classic historical nursing education text by florence nightingale the following nursing notes are by no means intended as a rule of thought by which nurses can teach themselves to nurse still less as a nursing manual to teach nurses to nurse they are meant simply to give hints for thought to women who have personal charge of the health of others every woman or at least almost every woman in england has at one time or another of her life charge of the personal health of somebody whether child or invalid in other words every woman is a nurse florence nightingale 12 may 1820 13 august 1910 was an english social reformer and statistician and the founder of modern nursing nightingale came to prominence while serving as a manager of nurses trained by her during the crimean war where she organised the tending to wounded soldiers 3 she gave nursing a highly favourable reputation and became an icon of victorian culture especially in the persona of the lady with the lamp making rounds of wounded soldiers at night while recent commentators have asserted nightingale s achievements in the crimean war were exaggerated by the media at the time critics agree on the decisive importance of her follow up achievements in professionalising nursing roles for women 6 in 1860 nightingale laid the foundation of professional nursing with the establishment of her nursing school at st thomas hospital in london it was the first secular nursing school in the world now part of king s college london in recognition of her pioneering work in nursing the nightingale pledge taken by new nurses and the florence nightingale medal the highest international distinction a nurse can achieve were named in her honour and the annual international nurses day is celebrated around the world on her birthday her social reforms include improving healthcare for all sections of british society advocating better hunger relief in india helping to abolish prostitution laws that were over harsh to women and expanding the acceptable forms of female participation in the workforce nightingale was a prodigious and versatile writer in her lifetime much of her published work was concerned with spreading medical knowledge some of her tracts were written in simple english so that they could easily be understood by those with poor literary skills she was also a pioneer in the use of infographics effectively using graphical presentations of statistical data much of her writing including her extensive work on religion and mysticism has only been published posthumously florence nightingale s most famous contribution came during the crimean war which became her central focus when reports got back to britain about the horrific conditions for the wounded on 21 october 1854 she and the staff of 38 women volunteer nurses that she trained including her aunt mai smith and 15 catholic nuns mobilised by henry edward manning 18 were sent under the authorisation of sidney herbert to the ottoman empire nightingale was assisted in paris by her friend mary clarke they were deployed about 295 nautical miles 546 km 339 mi across the black sea from balaklava in the crimea where the main british camp was based nightingale arrived early in november 1854 at selimiye barracks in scutari modern day Üsküdar in istanbul her team found that poor care for wounded soldiers was being delivered by overworked medical staff in the face of official indifference medicines were in short supply hygiene was being neglected

Note on Nursing 2013-07-01 neither in my own nursing education at the b s n nor at the m s n level was it even suggested much less required that i read any of florence nightingale s original writings even as a nurse educator for over 30 years i did not require my students to read her writings either after reading this book i now believe it is a void in the education of a nurse not to read at least some of the writings of the founder of modern day nursing notes on nursing would be an excellent choice this book introduces holistic health home health alternative therapies health prevention and maintenance the role of women in nursing and in everyday life nursing

administration leadership communications skills mind body and body mind relationships her theory on the use of light fresh air warmth cleanliness quiet and the proper selection and administration of diet is also well explored anita s kessler r n m s n m ed

Notes on Nursing 2019-02-02 the following notes are by no means intended as a rule of thought by which nurses can teach themselves to nurse still less as a manual to teach nurses to nurse provided by publisher

Notes on Nursing 2007 neither in my own nursing education at the b s n nor at the m s n level was it even suggested much less required that i read any of florence nightingale s original writings even as a nurse educator for over 30 years i did not require my students to read her writings after reading this book i now believe it is a void in the education of a nurse not to read at least some of the writings of the founder of modern day nursing notes on nursing would be an excellent choice this book introduces and discusses to some degree many of the concepts nurses have been dealing with since before my entrance into the field in the 1969 and certainly ever since included in these pages are concepts such as holistic health home health alternative therapies health prevention and maintenance the role of women in nursing and in everyday life nursing administration leadership communications skills mind body and body mind relationships her theory on the use of light fresh air warmth cleanliness quiet and the proper selection and administration of diet is also well explored some of the comments are unexpected and very insightful anita s kessler r n m s n m ed florence nightingale was the founder of the modern nursing profession she single handedly revolutionized medical treatment with her writings on nursing anita s kessler has been an educator of nurses for more than thirty years
