people living on the indian subcontinent have been a sharply divided lot for a very long time in spite of belonging to the same established respected older civilization our divisiveness resulted in inviting repeated assaults by uncivilized arabs and savages from other parts of asia this led to foreign subjugation for a millennium first by islamic invaders and looters then by europeans who came as traders but became rulers the entry of aliens led to unabashed proselytizing into their newer religions it may not be wrong to say that 99 percent of muslims and christians living on the subcontinent are converts from hinduism that has been more a way of life rather than a watertight religion for two millennia or more this means today s inhabitants are from the same civilization and culturally speaking hindustanis however a proliferation of alien religions did aggravate and compound divisiveness the british ruled the country for two centuries or so and did the maximum damage to our character morale and psyche after the first war of independence the british promulgated pretty stiff laws especially the

police act of 1861 to keep their slaves under tight leash worse still they introduced macaulay system of education in english to wean us away from our cultural moorings heritage literature moral values and our own sanskrit language indian social religious and educational reformers raja ram mohan roy swami sahjanand bankim chandra chatterjee swami dayanand sarasvati swami vivekananda and rishi aurobindo ghosh as well as the likes of them brought back the pride of our civilization and culture their influence was apparent from the beginning of 19th century in the fields of politics public administration and education as well as strengthening hinduism this first awakening from slumber or hibernation ignited the minds of revolutionaries who selflessly and untiringly worked hard on the soils of the subcontinent and the foreign lands culminating in throwing out deeply entrenched british lock stock and barrel not so nationalistic but opportunistic congress party led by their self serving trio of stalwarts gandhi his adopted son nehru and lieutenant patel got the subcontinent partitioned and formed government in divided india congress party ruled but not served hindustan for 90 percent of the time since independence by strictly following british divide and rule policy to perfection without changing improving archaic british laws being communal congress aggravated the divisiveness thus bringing untold misery to the masses in the form of communal strife and hindu muslim riots repeatedly the prolonged misrule by those corrupt inept rudderless politicians including the decade under its economist dummy pm heading the most corrupt and arrogant government ever in the history of independent country brought in lawlessness fragile environment grossly inadequate infrastructure increasing terrorism and maoism naxalism ever mounting inflation sky rocketing corruption gargantuan scams bankrupt economy policy paralysis stalling of reforms and what not the absolute number of the poor today is far more than total population of newly born country in 1947 this grave crisis like situation warranted a second awakening in 21st century expectedly hindustanis rose to the occasion once again decimated the corrupt congress and voted for a change by electing a visionary strong and honest pm from bjp with a thumping majority this gentleman is a dynamic focused highly optimistic staunchly nationalistic real leader unlike the pygmies of congress the task ahead is dauntingly stupendous modi started showing promise during his first 60 days the damage done in 60 years may take ten years if not more to repair and actual proper turnaround thus placing this once great country on track to reclaim its lost genuine glory although independence was ushered in 67 years ago yet freedom is still awaited that will require imminent electoral intellectual judicial police political and social reforms together with building moral character and bringing meritocracy in every appointment by doing away with the congress policy of favours quotas and reservations for the undeserving very much like

narendra modi the first pm to be born after independence and heading the youngest india educated ministry all of us have to remain optimistic and vigilant we must perform our duties diligently as law abiding faithful but demanding citizens alive to the times

the future of fiction is neither global nor national instead matthew hart argues it is trending extraterritorial extraterritorial spaces fall outside of national borders but enhance state power they cut across geography and history but do not point the way to a borderless new world they range from the united nations headquarters and international waters to cia black sites and the departure zones at international airports the political geography of the present hart shows has come to resemble a patchwork of such spaces hart reveals extraterritoriality s centrality to twenty first century art and fiction he shows how extraterritorial fictions expose the way states construct global space in their own interests extraterritorial novels teach us not to mistake cracks or gradations in political geography for a crisis of the state hart demonstrates how the unstable character of many twenty first century aesthetic forms can be traced to the increasingly extraterritorial nature of contemporary political geography discussing writers such as margaret atwood j g ballard amitav ghosh chang rae lee hilary mantel and china miéville as well as artists like hito steyerl and mark wallinger hart combines lively critical readings of contemporary novels with historical and theoretical discussions about sovereignty globalization cosmopolitanism and postcolonialism extraterritorial presents a new theory of literature

that explains what happens when dreams of an open connected world confront the reality of mobile elastic and tenacious borders
