San Francisco Municipal Reports 1881

getting higher productivity doesn t mean working for more time with the available resources it is all about how smartly we work on a sewing floor it refers to how efficient we are at doing a piece of work i e opting the best method with the combination of most recent technology available this not only increases the productivity but also saves money improves quality by reducing defects following the above concept a series of articles review the different levels of technology solutions available for an operation the make and models of machinery and equipment available in the market at the outset it must be borne in mind that many of the operations are complex time consuming and require a skilled operator the process can be greatly simplified by using automatic machines available for the purpose which promisingly enough also give a fair roi this is calculated for each of the operations to gauge the overall advantage an automatic machine holds over a basic manually operated one

U.S. Exports 1974

examines what things have cost and how much money people have had to buy them recording the actual prices of thousands of items that consumers purchased from the civil war to the present along with facts about investment options and income opportunities draws on over 500 sources including trade cards newspapers magazines catalogues direct mail letters and posters the first of the five chronological chapters covering up to 1899 is in a different format because the foundations for a national consumer economy were just being established and little in the way of public advertisements or government statistics were produced the subsequent chapters begin with a background essay describing the major social and economic forces of the period then report prices and income in subchapters on such areas as investments standard incomes food and amusements there is no index annotation copyrighted by book news inc portland or
