Ethics and Statecraft 2004-06-30

this revised edition of ethics and statecraft has been reorganized to better situate chapters that play to one another thematically on peacemaking the ethics and statecraft of war and the statecraft of major international reform and two new chapters on theodore roosevelt and the vietnam war respectively have been added to this classic work the contributions remain centrally concerned with moral reasoning about important decisions taken by key statesmen in times of war peace and transformation arguing that national leaders including realists have always concerned themselves with normative constraints on power both their own and that of others this book posits that the problems of ethics in international relations are always conditioned by uncertainty actors inexact knowledge of real world conditions and morally ambiguous outcomes contrary to the course assumptions of much ir theory individual leaders remain the major conduit by which ethical concerns are deployed or ignored in the foreign policy of states to ignore moral norms which already govern international relations is to ignore a key dimension of the subject such an oversight will necessarily lead to a shallow analysis and a basic misunderstanding of how and why states behave as they do

Moral Reasoning and Statecraft 1988

composed by nine of his former students on the occasion of the miller center s tenth anniversary these essays commemorate dr kenneth w thompson s educational leadership and support it is fitting that the contributors to this volume have chosen to present dr thompson with a collection of essays devoted to moral reasoning and statecraft as teacher and scholar dr thompson returns time and time again to explore the moral resources of statecraft and to probe the normative foundations of political choice contributors to this volume are reed davis alberto r coll farhang rajae w david clinton daniel g lang nicolai n petro robert a strong ian graig gale a mattox and brian e klunk includes a complete bibliography of dr thompson s writings co published with the miller center of public affairs

Virtue Politics 2019

james hankins challenges the view that the renaissance was the seedbed of modern republicanism with machiavelli as exemplary thinker what most concerned renaissance political theorists hankins contends was not reforming laws but shaping citizens to secure the social good they fostered virtue through a new program of education the humanities

Moral Responsibility, Statecraft and Humanitarian Intervention 2015-06-12

this book explores the moral complexity of statecraft in the context of decision making on armed intervention in the post cold war era this book adds to the debate on humanitarian intervention by analyzing the moral complexity of statecraft when confronted with situations of severe human rights violations through a comparative case study of president bill clinton administration s failure to intervene in the rwanda genocide 1994 the george w bush administration s tepid response to the darfur atrocities 2003 07 and the barack obama administration s leadership behind the limited u n intervention in libya 2011 it explores the factors domestic and international that influence decision making about humanitarian intervention these cases show not only how international moral concerns often compete with interest based and domestic concerns but how decision makers are often confronted by competing moral imperatives in such situations it is often not clear which imperatives should be followed in an increasingly interconnected world this book examines how we expect state leaders to balance different moral responsibilities this book will be of much interest to students of humanitarian intervention the responsibility to protect human rights us foreign policy african politics and ir in general

The Noble Lie 2013

in this wide ranging philosophical inquiry greg russell considers the pioneering work of hans j morgenthau one of twentieth century america s leading political philosophers making extensive use of the morgenthau papers at the university of virginia russell differentiates morgenthau s philosophy of realism from the european heritage of machiavellianism or *raison d etat* he also evaluates morgenthau s commentary on the nature of moral choice in political existence after identifying morgentau s ideological predecessors in europe russell documents his departure from the canons of *raison d etat* he identifies morgenthau s profound regard for the underlying purposes and ideals of american society morgenthau s objective according to russell was to harmonize the successful defense of the national interest with the promotion of desirable values in foreign policy the american statesman believed that the principles of morality and the necessities of power are not mutually exclusive categories by which to define the scope and objectives of the national interest in morgenthau s view a responsible foreign policy must begin with the practical necessities of survival and the maintenance of a balance of power and at the same time accommodate the transcendent values of the american people who insists upon universal moral principles

The Moral Issue in Statecraft 1966

economic sanctions provide an alternative to waging war or a means to advance human rights but are they morally justifiable philosophers have explored the ethics of

of war but rarely the ethics of carrots and sticks cécile fabre offers a defense of economic statecraft laying out a normative framework for this critical tool of diplomacy

Hans J. Morgenthau and the Ethics of American Statecraft 1990

this book analyses the concept of military necessity and just war thinking and argues that it should be seen as a vital moral principle for leaders the principle of military necessity is well understood in the manuals of modern militaries and is recognized in the war convention it is the idea that battlefield commanders should make every effort to win on a local battlefield within legal means and using proportionate and discriminating weapons and tactics every legal textbook on war includes military necessity as a foundational principle within the jus in bello ethics of fighting war alongside principles of proportionality and distinction and it is taught in every western military academy even the international committee of the red cross lauds the concept as a cardinal principle of warfare however unlike legal scholarship pick up a book by almost any just war thinker in philosophy theology or the social sciences and the concept is missing altogether this volume returns military necessity to just war thinking and lays out the argument for doing so each contributor taps into one of the many dimensions of military necessity such as its relationship to jus ad bellum ethics of going to war categories e g right intention its relationship to jus in bello categories or its application in foreign policy and military doctrine case studies in the book point out the practical moral dimensions of military necessity in cases from the targeted killing of terrorists to battlefield decisions that led to the use of the atomic bomb at hiroshima this book will be of interest to students of just war theory military ethics statecraft and international relations

The Moral Issue of Statecraft 1966

excerpt from evolution of technical education in economics politics statecraft and morals the work of the franklin institute during seventy five years today the acuteness of the political leader and the wisdom of the statesman may be very accurately gauged by the attention which he gives to the education of the people and especially to a systematic development of that technical education which has so long but so slowly been in process of evolution as a complement of the gymnastic purely literary curriculum of older times the moral and intellectual magnitude of the educator may be measured by the extent to which he has come to appreciate and to promote these evolutionary movements the statesmen of germany of france the educators of our own country particularly illustrate this fact glancing over the compilation of testimony favorable to the inauguration in the earliest days of our republic of a national university as representative of a national and public scheme of education of the people as printed by the national committee one sees at a glance that the signatures are those of the greatest statesmen of the world the grander his statecraft the nobler his plans for educational

Can We Think Systematically about Ethics and Statecraft? 1994

Russell explains how Roosevelt's stewardship of American diplomacy grew out of an understanding of power politics as well as a moral sensibility about the requirements of justice and righteousness in the conduct of individuals and nations

Economic Statecraft 2018-08-01

How do we frame decisions to use or abstain from military force? Who should do the killing? Do we need new paradigms to guide the use of force and what does victory mean in contemporary conflict? In many ways these are timeless questions but they should be revisited in light of changing circumstances in the twenty-first century. The post-cold war post-9/11 world is one of contested and fragmented sovereignty. Contested because the norm of territorial integrity has shed some of its absolute nature. Fragmented because some states do not control all of their territory and cannot defeat violent groups operating within their borders. Humanitarian intervention, preventive war, and just war are all framing mechanisms aimed at convincing domestic and international audiences to go to war or not, as well as to decide who is justified in legally and ethically killing. The international group of scholars assembled in this book critically examines these frameworks to ask if they and if so how they can be improved. Finally, the volume contemplates

ethics and statecraft the moral dimension of international affairs 3rd edition

2018-04-17 8/17

what all the killing and dying is for if victory ultimately proves elusive

Military Necessity and Just War Statecraft 2023-12-19

with a new foreword by noted theologian and ethicist stanley hauerwas this classic text on war and the ethics of modern statecraft written at the height of the vietnam era in 1968 speaks to a new generation of readers characterized by a sophisticated yet back to basics approach the just war begins with the assumption that force is a fact in political life which must either be reckoned with or succumbed to it then grapples with modern challenges to traditional moral principles of just conduct in war the morality of deterrence and a just war theory of statecraft

Evolution of Technical Education in Economics, Politics, Statecraft and Morals 2017-10-31

this book proposes an innovative and comprehensive framework for conducting statecraft in the 21st century called neo statecraft this framework is based on the reconciliation of power interests and justice the author proposes four substrates of neo statecraft 1 a new structure he calls meta geopolitics which includes seven inter related dimensions of state power and identifies a geostrategic tripwire pivotal corridor tpc 2 a sustainable national security paradigm that stresses the centrality of justice symbiotic realism and transcultural synergy 3 a new concept called just power which states that power must be smart as well as just and that global justice is above all a national interest of all states and 4 a new concept called reconciliation statecraft of the eight global interests dr nayef r f al rodhan is senior scholar in geostrategy and director of the programme on the geopolitical implications of globalisation and transnational security at the geneva centre for security policy geneva switzerland

The Statecraft of Theodore Roosevelt 2009

the second edition retains the selection of texts presented in the first edition but offers them in new translations by richard j regan including that of his aquinas treatise on law hackett 2000 a revised introduction and glossary an updated select bibliography and the inclusion of summarising headnotes for each of the units conscience law justice property war and killing obedience and rebellion and practical wisdom and statecraft further enhance its usefulness

thinking back to certain principals and interests which have guided america before during and after the cold war co published with the institute for public policy

The Just War 2002

reconceiving politics in a theological framework christianity politics and the predicament of evil argues for a constructive ethic that affirms both soulcraft and statecraft as essential elements of christians political vocation and specifies the appropriate terms of their relationship

Clean Or Dirty Hands 1995

this collection of wide ranging case studies and theoretical pieces shows how religious or spiritual factors can play a helpful role in international relations written by a distinguished roster of scholars this volume includes a foreword by jimmy carter and six maps

21st-Century Statecraft 2022-07-28

politics is concerned with citizenship and the administration of justice how communities are formed and governed the role of christians in the political process is hotly contested but as citizens francis beckwith argues christians have a rich heritage of sophisticated thought as well as a genuine responsibility to contribute to the shaping of public policy in particular beckwith addresses the contention that christians or indeed religious citizens of any faith should set aside their beliefs before they enter the public square what role should religious citizens take in a liberal democracy what is the proper separation of church and state what place should be made for natural rights and the moral law within a secular state this cogent introduction to political thought surveys political science politics and government while making the case for how statecraft may genuinely contribute to soulcraft politics for christians is part of the christian worldview integration series

The Ethics of Statecraft 2009

crawford explains the political dynamics of pivotal deterrence and the conditions under which it is likely to succeed while examining some of its most impressive feats and failures german chancellor otto von bismarck s agile approach to the 1870s eastern crisis which prevented war between russia and austria hungary is contrasted with britain s ambiguous and ill fated maneuvers to deter germany and france in july 1914 shifting to the 1960s cold war crawford explores the successes and setbacks in u s efforts to prevent nato allies greece and turkey from fighting over cyprus and to defuse the kashmir conflict between india and pakistan book jacket

On Law, Morality, and Politics (Second Edition) **2003-03-07**

the plaintiff lectures for 1965 deal with the perennial problem of moral man in immoral society the society in question being the international states system an examination of the working of that system discloses that the scope for wrong doing by the makers of foreign policy has since 1945 enlarged rather than contracted deceit treachery and cruelty are held to be the characteristic manifestations of modern statecraft rather than exceptional or aberrational an attempt is made to discover why this should be so the traditional attitudes towards the discrepancy between private ethics and the ethics of statecraft is assessed and found wanting a new attitude is outlined and recommended finally the lectures seeks fresh answers to machiavelli s classic inquiry into the ways in which statesman should keep faith the inquiry is broadened to include not statesmen only but public servants diplomatic and military the public at large and intellectuals in whom a special responsibility is discerned the range of applications of these lectures is immense argued closely and yet from a broad intellectual base they pertain directly to all who exercise and influence public authority

Statecraft and Power 1994

this text offers a set of portraits of key leaders struggling with great moral issues in critical political settings the use of political biographies to illustrate the exercise of statecraft during periods of war in peacemaking and in times of major change cuts to the heart of the role of ethics in the decision making process and in international affairs

Christianity, Politics, and the Predicament of Evil **2019**

ruling passion is the only book length study of tyranny statesmanship and civic virtue in three major platonic dialogues the georgias the symposium and the republic it is also the first extended interpretation of eros as the key to plato s understanding of both the depths of human vice and the heights of human aspirations for virtue and happiness through his detailed commentary and eloquent insights on the three dialogues waller newell demonstrates how for plato tyranny is a misguided longing for erotic satisfaction that can be corrected by the education of eros toward the proper objects if its pleasure civic virtue and philosophy in unfolding these reflections through his analysis newell also demonstrates a rich and deep grasp of the complexities of the tyrannical personality and countless new insights into the dramatic dimensions of plato s dialogues written in a clear and engaging style ruling passion will be of interest to philosophers political theorists classicists historians and anyone generally intrigued by the ironies mysteries and longings of human nature and psychology

Religion, the Missing Dimension of Statecraft **1995**

federico chabod 1901 1960 was one of italy s best known historians noted for his study of italian history in a european context this is the first english translation of his most important book although he carried out his extensive archival research for this work from 1936 until 1943 the fall of fascism and chabod s active participation in the resistance delayed its completion when it was published in 1951 it was immediately hailed as a masterpiece chabod intended to write a new kind of diplomatic history one in which political history is seen as part of a larger historical whole he does not present a detailed chronological account of italian foreign policy during the period studied but rather the moral and material underpinnings of that policy in fact he crafts a highly developed portrait of an age with the real subjects being the italian state and society the ruling class and political culture this work offers readers a superb picture of post risorgimento italy and an outstanding example of chabod s historiographical method originally published in 1996 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

Politics for Christians 2012-05-20

rising inequality the advance of far right populism ecological and climatic catastrophe and the scourge of global pandemic disease these are among the defining crises of our time addressing the governing challenges posed by each requires a more expansive vision of the scope and possibilities of state action than political scientists and economists have furnished to date in statecraft and the political economy of capitalism political economists scott g nelson and joel t shelton examine several key social and political dynamics of advanced capitalism for insights into the fate of equality community and solidarity in chapters addressing divergent problems and spanning several centuries statecraft is presented as a conceptual lens through which the art and practice of public action is continually rearticulated in response to the shifting economic social and political conditions of a given epoch the authors examine several consequential moments in the long tradition of political economy in relation to the governing predicaments of the present day highlighting those predicaments that bear upon the well being of all people especially society s most vulnerable the book thus reintroduces the creative and purposive aspects of governing to the study and practice of political economy a field that has been too preoccupied with technical institutional and procedural aspects of economic management framing problems of governing national and global economies in relation to the craft of the state means searching for continuities between capitalism s early promise and present peril

ethics and statecraft the moral dimension of international affairs 3rd edition

Pivotal Deterrence 2003

while the 1990s gave rise to a wealth of literature on the notion of ethical foreign policy it has tended to simply focus on a version of realism which overlooks the role of ethics in international affairs this book explores ethical realism as a theoretical framework

Reason of State and Statecraft in Spanish Political Thought, 1595-1640 1983

composed by nine of his former students on the occasion of the miller center s tenth anniversary these essays commemorate dr kenneth w thompson s educational leadership and support it is fitting that the contributors to this volume have chosen to present dr thompson with a collection of essays devoted to moral reasoning and statecraft as teacher and scholar dr thompson returns time and time again to explore the moral resources of statecraft and to probe the normative foundations of political choice contributors to this volume are reed davis alberto r coll farhang rajaei w david clinton daniel g lang nicolai n petro robert a strong ian graig gale a mattox and brian e klunk includes a complete bibliography of dr thompson s writings co published with the miller center of public affairs

***Political Prudence and the Ethics of Statecraft* 1994**

few scholars have provided as much insight into the struggle of leaders ideas and policies as paul w schroeder constantly challenging conventional views and drawing upon a masterly command of the sources and literature schroeder provides new answers to old questions about international history and politics since the age of napoleon were european international relations really driven by balance of power politics or has that traditional view blinded us to an underlying normative consensus on the rules of the game that frequently contributed to cooperation among the leading states in the system are alliances primarily a means of the aggregation of power against stronger states or do states often use alliances as instruments of influence or control over their allies was world war i contingent upon a confluence of independent processes that intersected in 1914 or was it the product of more deeply rooted and interconnected structural forces that pushed inevitably toward war what is the role of moral judgment in historical investigation raising new questions and offering provocative new interpretations schroeder encourages historians and political scientists alike to reconsider their long standing beliefs about the evolution and dynamics of modern diplomacy

Right and Wrong in Foreign Policy 1966-12-15

this edited volume provides one of the most formidable critical inquiries into public diplomacy s relationship with hegemony morality and power wherein the

ethics and statecraft the moral dimension of international affairs 3rd edition

examination of public diplomacy's frontiers will aid scholars and students alike in their acquiring of greater critical understanding around the values and intentions that are at the crux of this area of statecraft for the contributing authors to this edited volume public diplomacy is not just a political communications term it is also a moral term within which actors attempt to convey a sense of their own virtuosity and goodness to international audiences the book thereby provides fascinating insight into public diplomacy from the under researched angle of moral philosophy and ethics arguing that public diplomacy is one of the primary vehicles through which international actors engage in moral rhetoric to meet their power goals the frontiers of public diplomacy is a landmark book for scholars students and practitioners of the subject at a practical level it provides a series of interesting case studies of public diplomacy in peripheral settings however at a conceptual level it challenges the reader to consider more fully the assumptions that they may make about public diplomacy and its role within the international system

Ethics and Statecraft 1995

this text presents the concepts theories methods and traditions of ethical analysis and then applies them to case studies in the areas of human rights military force foreign intervention economic statecraft and global political justice

Ruling Passion 2000

george f will purports that the proper goals of statecraft are justice social cohesion and national strength therefore he urges the development of a conservatism with a kindly face capable of respecting private enterprise and at the same time espousing an affirmative doctrine of the welfare state which will see as an embodiment of the wholesome ethic of common provision proper government involves the cultivation of good character in citizens this is what is meant by statecraft as soulcraft
