Human-Computer Interaction. Interaction Technologies

2018-07-10

this book includes the proceedings of the international conference on advanced information technology services and systems ait2s 17 held on april 14 15 2017 in tangier morocco presenting the latest research in the field it stimulates debate discusses new challenges and provides insights into the field in order to promote closer interaction and interdisciplinary collaboration between researchers and practitioners intended for researchers and practitioners in advanced information technology management and networking the book is also of interest to those in emergent fields such as data science and analytics big data internet of things smart networked systems artificial intelligence and expert systems pattern recognition and cloud computing

CoNEXT '15

2015

the international conference on advances in computing and information technology acity 2012 provides an excellent international forum for both academics and professionals for sharing knowledge and results in theory methodology and applications of computer science and information technology the second international conference on advances in computing and information technology acity 2012 held in chennai india during july 13 15 2012 covered a number of topics in all major fields of computer science and information technology including networking and communications network security and applications web and internet computing ubiquitous computing algorithms bioinformatics digital image processing and pattern recognition artificial intelligence soft computing and applications upon a strength review process a number of high quality presenting not only innovative ideas but also a founded evaluation and a strong argumentation of the same were selected and collected in the present proceedings that is composed of three different volumes

Proceedings of the Seventh International Conference on Information and Communication Technologies and Development

2015

this book constitutes the refereed post conference proceedings of the 15th eai international conference on tools

for design implementation and verification of emerging information technologies tridentcom 2020 due to covid 19 pandemic the conference was held virtually the 12 full papers were selected from 32 submissions and deal the emerging technologies of big data cyber physical systems and computer communications the papers are grouped in thematical sessions on computer network and testbed application as well as analytics for big data of images and test

Computer Systems and Technologies

2015

this book constitutes the proceedings of the 15th german conference on multiagent system technologies mates 2017 held in leipzig germany in august 2017 the 17 full papers presented in this volume were carefully reviewed and selected from 24 submissions for inclusion in the proceedings over these 15 years the mates conference series has been aiming at the promotion of and the cross fertilization between theory and application of intelligent agents and multi agent systems

Proceedings of the 15th International Conference on Extending Database Technology

2012

this book constitutes the refereed proceedings of the 15th international conference on electronic commerce and technologies ec held in munich germany in september 2014 the 11 full and 8 short papers included in this volume were carefully reviewed and selected from 46 submissions the papers are organized in topical sections on data information and knowledge management for e business semantic and linked open data for e business search matchmaking recommender and comparison systems economics management and law and social interaction in e business

Advanced Information Technology, Services and Systems

2017-11-10

the rev conference aims to discuss the fundamentals applications and experiences in remote engineering virtual instrumentation and related new technologies as well as new concepts for education on these topics including

proceedings of spie

emerging technologies in learning moocs mools open resources and stem pre university education in the last 10 years remote solutions based on internet technology have been increasingly deployed in numerous areas of research science industry medicine and education with the new focus on cyber physical systems industry 4 0 internet of things and the digital transformation in industry economy and education the core topics of the rev conference have become indispensable elements of a future digitized society rev 2018 which was held at the university of applied sciences in duesseldorf from 21 23 march 2018 addressed these topics as well as state of the art and future trends

Advances in Computing and Information Technology

2012-08-11

this book highlights new trends and challenges in research on agents and the new digital and knowledge economy it includes papers on business process management agent based modeling and simulation and anthropic oriented computing that were originally presented at the 15th international kes conference on agents and multi agent systems technologies and applications kes amsta 2021 being held as a virtual conference in june 14 16 2021 the respective papers cover topics such as software agents multi agent systems agent modeling mobile and cloud computing big data analysis business intelligence artificial intelligence social systems computer embedded systems and nature inspired manufacturing all of which contribute to the modern digital economy

Tools for Design, Implementation and Verification of Emerging Information Technologies

2021-05-21

this book contains papers presented in the 3rd international conference on separation technology 2020 icost 2020 held from 15 to 16th august 2020 at johor malaysia this proceeding contains papers presented by academics and industrial practitioners showcasing the latest advancements and findings in field of separation technology the papers are categorized under the following tracks and topics of research environment engineering biotechnology absorption and adsorption technology wastewater treatment icost 2020 covers multidisciplinary perspectives on separation research and aims to promote scientific information interchange between academics researchers graduates and industry professionals worldwide this conference provides opportunities for the delegates to exchange new ideas and application experiences face to face to establish business or research relations and to find global partners for future collaboration

Multiagent System Technologies

2017-08-11

this volume consists of papers presented at the 2014 international symposium on systems and computer technology issct 2014 shanghai china 15 17 november 2014 the demand for systems and informatics have been constantly increasing as more and more computer applications have been built great efforts have been made to improve the state of the a

E-Commerce and Web Technologies

2014-08-18

this book constitutes the proceedings of the 15th international conference on parallel computing technologies pact 2019 held in almaty kazakhstan in august 2019 the 24 full papers and 10 short papers presented were carefully reviewed and selected from 72 submissions the papers are organized in topical sections on programming languages and execution environments methods and tools for parallel solution of large scale problems data processing cellular automata and distributed algorithms

VTDC '15 : Proceedings of the 8th International Workshop on Virtualization Technologies in Distributed Computing : June 15, 2015, Portland, Oregon, USA.

2015

this book includes high quality papers presented at 15th international conference on information technology and applications icita 2021 held in dubai uae during 13 14 november 2021 the book presents original research work of academics and industry professionals to exchange their knowledge of the state of the art research and development in information technology and applications the topics covered in the book are cloud computing business process engineering machine learning evolutionary computing big data analytics internet of things and cyber physical systems information and knowledge management computer vision and image processing computer graphics and games programming mobile computing ontology engineering software and systems modelling human computer interaction online learning e learning computer networks and web engineering

2018-07-24

official record of the conference including the keynote addresses and the summary reports of the workshop sessions conference participants were chosen from among the highest level decision makers in large and small canadian companies universities government agencies and labour unions coverage dealt with the importance of science and technology and what canada particularly the private sector must do to develop and use technology and become more innovative

Agents and Multi-Agent Systems: Technologies and Applications 2021

2021-06-07

this book constitutes the refereed proceedings of the 15th information retrieval technology conference airs 2019 held in hong kong china in november 2019 the 14 full papers presented together with 3 short papers were carefully reviewed and selected from 27 submissions the scope of the conference covers applications systems technologies and theory aspects of information retrieval in text audio image video and multimedia data

Iticse 15 Innovation and Technology in Computer Science Education

2015-08-18

this book constitutes the refereed proceedings of the 15th international workshop on communication technologies for vehicles nets4cars nets4trains nets4aircraft 2020 held in bordeaux france in november 2020 the 18 full papers were carefully reviewed and selected from 22 submissions the selected papers present original research results in areas related to the physical layer communication protocols and standards mobility and traffic models experimental and field operational testing and performance analysis

PETRA '22

and technology aist2016 features unique mixed topics of artificial intelligence and application computer and software communication and network information and security data mining and optimization

Proceedings, Web3D 2010

2010

this book constitutes the proceedings of the 15th international conference on distributed computing and internet technology icdcit 2019 held in bhubaneswar india in january 2019 the 18 full papers and 14 short papers presented together with 5 invited papers were carefully reviewed and selected from 115 submissions the papers present research in three areas distributed computing internet technologies and societal applications

VTDC '15

2021-05-24

this book gathers the proceedings of the 7th international conference on advancements of medicine and health care through technology held virtually on 13 15 october 2020 from cluj napoca romania it reports on both theoretical and practical developments fostering the use of cutting edge technology in clinical settings telemedicine and biological research chapters mainly deal with medical devices measurements and instrumentation medical imaging and biological signal processing and health care information systems further topics include modeling simulation and biomechanics as well as innovative bio materials for biomedical applications the conference as well as the realization of this book was supported by the romanian society for medical engineering and biological technology

Proceedings of the 3rd International Conference on Separation Technology

2015-09-17

annotation the conference aims at bringing recent research activities in a wide area of computers and communication technologies the prospective topics of discussion would be latest technologies in computing like big data analytics cloud grid green computing etc the recent advancements in communication technologies will also be discussed in the conference paper presentation sessions the conference would be an ideal forum for researches students and faculty members to get updated with the recent innovations in the field of computing and communication the conference also has parallel paper presentation sessions that would be chaired by expert members

2012-12-20

11/17

ophthalmic technologies 15
proceedings of spie

this will give the researchers detailed idea as to how to proceed with their research the conference will also host panel discussion and tutorial on recent trends in computing and communication technologies

Systems and Computer Technology

2019-08-01

this book includes original peer reviewed research papers from the 2020 international top level forum on engineering science and technology development strategy the 5th purple mountain forum on smart grid protection and control pmf2020 held in nanjing china on august 15 16 2020 hot topics and cutting edge technologies are included advanced power transmission technology ac dc hybrid power grid technology eiot technology and application operation protection and control of power systems supplied with high penetration of renewable energy sources active distribution network technology smart power consumption and energy saving technology new technology on substation automation clean energy technology energy storage technology and application key technology and application of integrated energy application of ai block chain big data and other new technologies in energy industry application of new information and communication technology in energy industry application of technical standard system and related research in energy industry the papers included in this proceeding share the latest research results and practical application examples on the methodologies and algorithms in these areas which makes the book a valuable reference for researchers engineers and university students

Parallel Computing Technologies

2022-04-22

this book constitutes the refereed proceedings of the 22nd international conference on information and software technologies icist 2016 held in druskininkai lithuania in october 2016 the 61 papers presented were carefully reviewed and selected from 158 submissions the papers are organized in topical sections on information systems business intelligence for information and software systems software engineering information technology applications
