from ancient myths to the world's great religions Dr Shearer expands our knowledge of how humans perceive, think, and shape our relationships with the divine toward interfaith harmony. Why people believe or not, and where differences take us next, teaches that by understanding ourselves we dare to transcend mere tolerance and to celebrate the differences that make us whole.

Toward Interfaith Harmony: Why People Believe or Not, And Where Differences Take Us Next

In older cultures, the use of intoxicant drugs was integrated into the rhythms of social existence and bounded by rituals and taboos that ensured their dangerous forces were contained and channelled. In modern Western societies, by contrast, the state and the institutions of society have washed their hands of any responsibility for assimilating the desire for intoxication into social existence, and by doing so have sponsored a free-for-all that has often had disastrous consequences for individuals and communities alike. Why we take drugs provides a timely intervention in the growing debate about the wisdom of the ongoing war on drugs, rather than adopting the assumption that drug and alcohol use is a problem that poses a threat to society. This book makes a case for the idea that society is a problem for intoxicant drug use, and that it is society that poses a threat by denying those who seek intoxication a legitimate and socially sanctioned space in which to experience these altered states. Scholarly yet approachable, it provides a new understanding of the meaning and role of intoxicant drug use in contemporary society, setting an in-depth phenomenological analysis of intoxication as an embodied experience within a wide sociological, anthropological, and historical context. These ideas are brought to life by intimate and revealing accounts of ordinary drug users' experiences with a wide range of substances. This book will appeal to a wide range of students and scholars throughout the social sciences, particularly in the areas of drug and alcohol studies, body studies, cultural studies, anthropology, and philosophy.

Why We Take Drugs

Why do heroes fight each other? Why do villains keep trying even though they almost never win? Why don't heroes simply take over the world? Economics and comics may seem to be a world apart, but in the hands of economics professor and comic book hero aficionado Brian O'Roark, the two form a powerful alliance. With brilliant deadpan enthusiasm, he shows how the travails of superheroes can explain the building blocks of economics, and how economics explains the mysteries of superhero behavior. Spider-Man's existential doubts revolve around opportunity costs; Wonder Woman doesn't have a sidekick because she has a comparative advantage; game theory sheds light on the battle between Captain America and Iron Man; the Joker keeps committing crimes because of the Peltzman effect; and utility curves help us decide who is the greatest superhero of all. Why Superman doesn't take over the world probes the motivations of our favorite heroes and reveals that the characters in the comics may have powers we don't, but they are still beholden to the laws of economics.

as a pastor i have a dual role that of a prophet and a priest the prophet confronts the people and the priest comforts the people i am to comfort the troubled and trouble the comfortable in relationship to the bible the dual struggle is clear as the priest i take the bible seriously because it changes lives first sermon i have never heard anyone give testimony that reading plato s the republic virgil s aeneid homer s odyssey cicero s moral ethics or john stewart mill s liberty changed their lives but thousands of people have given testimony of how reading the bible has changed their lives forever as the prophet i propose to you that no book has been more abused than the bible or more misunderstood the bible has been a playground for lunatics profit for the charlatans a profession for the clergy a problem for theologians a puzzle for the general public and placid for the masses i believe if a person will read the bible interpretatively and intelligently it will be read seriously respectfully and reverently thereby becoming the living word of god gene rollins author
